

National Association of Medical Device Educators and Trainers

NAMDET 2016 Annual Conference
3rd November 2016
Holiday Inn, Birmingham City Centre

Quality Training - Quality Care

As in previous years we have an exciting programme with some great speakers and exciting topics.

The conference venue is less than 5 minutes walk from Birmingham New Street Railway Station and there is an NCP Car Park quite close too!

The conference facilities are great and as the conference has grown year on year there is lots of room for further expansion both for companies and delegates.

We are close to finalising details and information will be posted on the NAMDET Website

Should you wish any further information, please email

conference@namdet

a member of the conference committee will get back to you asap.
