National Association of Medical Device Educators and Trainers

Dear All

We are in the process of preparing for the 2015 NAMDET Conference, which will hopefully be our best conference yet!

It would be helpful to know what topics would be important and beneficial to be added onto the agenda so could you please identify from the following list what areas would you be interested in seeing at the next conference, feel free to add any topics on the bottom of the list as well if you have any additional ideas:

Education Tools available (including Elearning)   Y/N

Training Competencies - can companies help   Y/N

Record keeping systems   Y/N

CQC requirements   Y/N

Self Declaration - A must or a risk?   Y/N

Incident reporting & follow up   Y/N

Procurement / Tendering process - are trainers involved?   Y/N

Training Accreditation   Y/N

Integrating Simulation into Medical Devices   Y/N

Other……………………………………………………………………………

…………………………………………………………………………………….

We are also looking for inspirational speakers for the conference, so if you would like to present, or know of someone we can approach to be a speaker at the conference, we would love to hear from you.

Please could you respond to me by the end of January with your comments & suggestions?
I know this is a short reply window, but due to the success of last year's conference we are looking for a bigger venue in Birmingham (Date still the same)

Kind regards
Andy Flood
On behalf of the Conference Committee
